

**SCANDSTICK**  
A Beontag company

**Pressure-sensitive  
adhesive materials  
for all applications**

## Welcome to ScandStick, a Beontag Company

– the perfect synergy between traditional European expertise and global reach.

Industrial facility in Sweden

**With over 40 years of excellence in supplying high-quality materials for the label industry, we take pride in extending our global outreach to North America, Asia and Latin America, in partnership with Beontag, and broadening our portfolio to meet your specific needs.**

We stand as a forefront supplier of pressure-sensitive adhesive materials worldwide.

## Diverse Portfolio for Different Applications

Our extensive portfolio includes pressure-sensitive adhesives materials with film and paper facestocks, including coated, thermal, and thermal transfer, available with hotmelt and acrylic adhesives.

**ScandStick's pressure-sensitive adhesives cater to a range of applications and requirements:**

- General purposes, chilled environments, high tack, challenging surfaces, freeze, removable, among others.
  - Materials for variable information labels: quality and a variety of adhesive options.
  - Prime materials for your labels with glossy, metallic, or transparent finishes: a premium look that enhances the brands.
  - Niche products\*: SGP, Piggyback, Tags.
- \*Minimum Order Quantities (MOQs) required.

ScandStick's commitment to the environment is confirmed by the FSC® (Forest Stewardship Council) certification, which attests that all our paper materials are sourced from responsibly managed forests.

## At ScandStick, we value the impact of direct and personalized service.

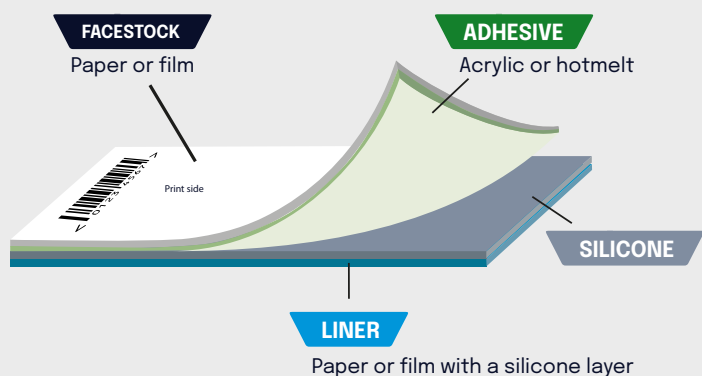

**Count on our commitment for:**

- Reliable, on-time deliveries.
  - Easy access and local support
- we're here for you, whenever and wherever you need us.

# Europe pressure-sensitive adhesives portfolio

## Composition of label materials

### Hotmelt

	SSP 50N	SSP 713	SSP 754	SSP 90	SSF 933
<b>Description</b>	General purpose chill permanent	General purpose permanent	General purpose permanent - A4-products	Heavy duty speciality permanent	Deep freeze permanent
<b>Key features</b>	Very high tack allround adhesive, outstanding performance in chilled and moist environments	High tack allround adhesive	High tack allround adhesive designed for A4-products	Very aggressive speciality adhesive for extremely demanding and difficult surfaces	True deepfreeze adhesive for labelling in sub-zero environments
<b>Minimum application temperature</b>	-5 °C	8 °C	0 °C	5 °C	-20 °C
<b>Service temperature</b>	-40 to 70 °C	-10 to 70 °C	-15 to 70 °C	-20 to 70 °C	-40 to 50 °C

### Acrylic

	SSP E60	SSP E64	SSR E70N	SSR E75N
<b>Description</b>	General purpose permanent	General purpose permanent - A4-products	Short term removable	Long term removable
<b>Key features</b>	High tack allround adhesive	High tack allround adhesive designed for A4-products	Good removability from low energy surface materials, e.g. corrugated board	Good removability from a wide range of surfaces, e.g. glass, metal etc.
<b>Minimum application temperature</b>	5 °C	5 °C	-5 °C	0 °C
<b>Service temperature</b>	-20 to 100 °C	-20 to 100 °C	-20 to 60 °C	-10 to 60 °C

## Backings

HG0	49 µm Honey Glassine
WG0	53 µm White Glassine
HG6	41 µm Honey Glassine
K1	54 µm Clay Coated Kraft
K2	69 µm Clay Coated Kraft

# ESG

ESG is at the core of our business strategy. As an ESG enabler, we are committed to supporting our customers in achieving their sustainability goals.

We have developed Beontag's 2030 Environmental, Social, and Governance (ESG) Strategies around commitments and targets aligned with the Sustainable Development Goals (SDGs). Until 2030, they will guide our approach towards diversity and inclusion, waste management, sustainable products, and other related issues.

Our Graphic & Label Materials (GLM) business unit aims to reach 85% of sustainable products in our annual sales by 2030. To achieve this goal, we continuously invest in research and development to expand our portfolio with a wider range of sustainable products and enabling sustainability across the value chain.

To learn more about our portfolio, please contact us.
